SURVEYS

NAMI Massachusetts & MA Behavioral Health Partnership (MBHP) is developing a training for emergency department staff to help improve the ways they respond to people in mental health and/or substance use crises and has created a survey to inform that training. The surveys deals with the treatment of people experiencing mental health and substance use crises, as well as those who sought medical treatment and felt the focus was on their prior mental health or substance use history rather than their medical condition. Feedback from the autism community about experiences visiting Massachusetts Emergency Departments in the past four years is needed! Complete the survey HERE to share your experience. NEW

The Franklin Regional Transit Authority (FRTA) is working diligently to continue to provide a vital service to the area by meeting the growing transportation needs of Franklin County as they plan for the future and update their Comprehensive Regional Transit Plan. For this 5-year plan update, they are seeking input from the public on current services and how they meet your needs. The survey is mobile-friendly, anonymous and is available in both English and Spanish. Access the survey HERE. NEW
